## Profile

Passionate and diligent, I am a Video Editor, Programmer and Games Developer with an artistic flair. With the aim of being creative and inspiring others to use this medium as their way of communicating in society. My greatest interest is how we interact with technology and design which I have pursued in a variety of projects. My ultimate goal is to make work that is both visually appealing and functional. Working on projects with like-minded artists is one of the things that keeps me motivated also creating media that can influence others with unique experiences. I am extremely excited to experience new projects, ideas and opportunities.
